REPORT

50X1-HUM

CD NO.

COUNTRY USSR

DATE OF  
INFORMATION 1946

SUBJECT Scientific - Physics, gas dynamics, detonics

HOW  
PUBLISHED Monograph

DATE DIST. 28 Jul 1950

50X1-HUM

WHERE  
PUBLISHED USSR

NO. OF PAGES 2

DATE  
PUBLISHED 1946SUPPLEMENT TO  
REPORT NO.

LANGUAGE Russian

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE  
 OF THE UNITED STATES WITHIN THE MEANING OF ESPIONAGE ACT 53  
 U. S. C., 51 AND 52, AS AMENDED. ITS TRANSMISSION OR THE REVELATION  
 OF ITS CONTENTS IN ANY MANNER TO AN UNAUTHORIZED PERSON IS PRO-  
 HIBITED BY LAW. REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

TABLE OF CONTENTS FOR  
"THE THEORY OF SHOCK WAVES AND AN INTRODUCTION TO GAS DYNAMICS"

Ya. B. Zel'dovich

TABLE OF CONTENTS

	<u>Page</u>
Introduction	3
I. Equations Used in Gas Dynamics	7
II. Basis of Acoustics. Velocity of Sound	15
III. Gas Discharge Through Nozzles	32
IV. Properties of Supersonic Flow	40
V. Flow of Gas in a Long Cylindrical Tube	46
VI. Motions that Depend upon the Relationship of Coordinates to Time	52
VII. Theory of Shock Waves. Introduction	61
VIII. Hugonio (Gyugonio) Adiabatic Curve. Its Derivation from Equations of Conservation	62
IX. Properties of the Hugonio Adiabatic Curve. Shock Waves in Air and in Water	67
X. History of the Problem of Shock Waves	73
XI. Graphic Methods of Treating the Theory of Shock Waves. Waves Close to the Critical Point	77
XII. Structure of the Shock Wave Front	87

50X1-HUM

	<u>Page</u>
XIII. Propagation of Shock Waves in Gas with Damped Excitation of the Internal Degrees of Freedom	94
XIV. Origin of Shock Waves	98
XV. Shock Waves in the High-Amplitude Range of Vibrations	105
XVI. Propagation of Spontaneous Explosion	109
XVII. Flow Around a Body at Supersonic Velocity	120
XVIII. Theory of Reactive Forces	127
XIX. Reflection of a Shock Wave	138
XX. The Action of Explosives. Introduction	142
XXI. Similarity (Dimensional Analysis) of an Explosion and the Propagation of Explosion Waves	146
XXII. Model Experiments and Similarity of Destruction Produced by a Shock Wave	152
XXIII. Effect in the Immediate Proximity of the Charge	156
XXIV. Laws Governing the Propagation of an Explosion Wave at Great Distances from the Charge	164
Bibliography	181
